(School of Rehabilitation Science in Léogâne)

FSRL: EDUCATING YOUNG HAITIANS IN THE ART AND SCIENCE OF REHABILITATION

“To improve and strengthen persons with a disability, to show them that all is NOT finished with their life, that they could, as we say in Haiti, ‘Move the mountain,’ then they can have faith and believe this will happen.”

– Sam-Paul Louis, 2nd year FSRL student

WHY DOES HAITI NEED FSRL?

1.1 MILLION

Haitians are estimated to have disabling physical and/or mental conditions requiring the help of qualified Occupational and Physical therapists.*

Yet, there are only about 50 Haitian PTs and 1 Haitian OT – all of whom received their degrees from the Dominican Republic because there was no such opportunity in Haiti.

Haiti needed its own OT and PT 4-year degree program! This credential allows graduates to operate independently as therapists. FSRL opened in 2015 to provide Haiti with its own, highly qualified OTs and PTs. **But we need YOUR help to fund the FSRL program.**

* PAHO (Pan American Health Organization), 2011

HOW CAN YOU HELP?

Your support will make the difference for this groundbreaking college degree program!

Donate online with your credit card or PayPal at www.haitirehab.org

Send a check made out to Haiti Rehabilitation Foundation and mail to:

Haiti Rehabilitation Foundation
P.O. Box 183
Hamilton, NY 13346

WHAT WILL MY GIFT DO FOR ONE FSRL STUDENT?

-  \$75 a textbook
-  \$175 1 month's tuition
-  \$500 annual entrance fee
-  \$1,000 brings FSRL a volunteer faculty member
-  \$4,000 funds all fees, tuition, room and board for 1 year

With your gift, you're investing in a quality education for a young Haitian. A donation in any amount is appreciated!

Where else in the world can your money go this far, and affect the well-being of so many?

FSRL HISTORY

FSRL is a department of the Episcopal University of Haiti, and is currently located on the lovely campus in Léogâne. Planning for the program began in 2011, when volunteers at St. Vincent's Center for Handicapped Children realized how helpful it would be to have Haitian therapists. The dream became a reality in October 2015, when the first five students enrolled. In 2019, our first class will graduate with a bachelor's degree in Occupational or Physical Therapy.

The **OT** curriculum has received approval by the World Federation of Occupational Therapy, and in 2016, the **PT** curriculum entered the review process by the World Confederation of Physical Therapy.

"The students are wonderful...eager to learn, and very excited. They are just like sponges, ready to absorb all they are taught!"

- Linda Robinson, PT
